INTRODUCTION

This volume continues the publication of the records of the descendants of Samuel Tingley. This project was started by my mother, Mrs. Marian M. Frye 10-03079-02, and without her research these books could not have been published. With the assistance of descendants in updating her notes, I am attempting to complete the publication of the records which she collected.

Any errors or additional information regarding the records in this volume or in previous volumes may be sent to Harold E. Frye, 3757 NW 53rd Road, Gainesville, FL 32653-0878, U.S.A. E-mail to afn03736@afn.org.

Readers of this book may be interested in the *TINGLEYS UNITED ASSOCIATION*. At this time, membership dues are $5 per year or $35 for a Life Membership. T-U News is published twice a year. Please note that I have no connection with T-U except as a member. Currently, the T-U President is Mr. Ted Tingley, 210 Elklore Ave., Estill Springs, TN 37330-3678. The T-U Secretary-Treasurer (to whom dues should be sent) is Mr. Shelby Smith, 2009 Winthrop St., Muncie, IN 47304.

Estella came to Lane Co., KS with her parents when she was six weeks old. She grew up and went to school there. In 1912 she bought Ladies Clothing Store, which she operated until 1917 when she moved to Mulvane, KS to continue with a store. Hosea and Estella operated a store in Udall, KS until 1955 when the tornado destroyed it.[304] [802]

From her daughter, Hattie: "They repaired the Haney Home and continued to live in Udall until after the death of her husband, then I took her to Los Angeles with me. She visited her sisters in Los Angeles and Eugene, OR and her brother in Portland; made several trips back to KS and one to Chicago, always by bus as she loved traveling that way. In Feb. 1961 she fell and broke her hip, and the following Nov. had a serious hemorrhage from some stomach trouble, had to have an operation, from which she recovered nicely, but her mind was failing. In July 1966, my husband

and I brought her to KS with us, and my daughter, Patricia Hodges, wanted her to live with them, but in Jan. 1967 she had another fall and had to be put in a home, at age 88. She was there nearly 3 years before she passed away."

09-01988-02 IRVING ANSON TINGLEY[10] (Judson[9], Anson[8], Benjamin[7], Elkanah[6], Thomas[5], Timothy[4], Thomas[3], Samuel[2], Palmer[1]), of Carbondale and Peckville, PA, born Apr. 23, 1892 at Herrick Center, Uniondale Twp., Susquehanna Co., PA; died Dec. 19, 1961 at Peckville, PA, heart attack; married Apr. 25, 1917 at Carbondale, Lackawanna Co., PA, Ethel Cordelia, daughter of Fred W. and Mary Elizabeth (Lamb) Dutcher, of Susquehanna, PA, born Jan. 20, 1896 at Susquehanna, PA; died Nov. 23, 1989, 93 y, at Wesley Village Nursing Home, Wilkes Barre, PA, illness; both are buried in Rounds Cem. at Uniondale, PA. Irving worked for the Hudson Coal Co. for over 50 years. He was chief Electrical Engineer at the Olyphant power plant managing a large crew of unionized men under his supervision. In his early adult years, he was an active Mason and played the coronet in the Carbondale Marine Band. He was a great fisherman and usually got his annual deer. He was an active member of Blakely Baptist Church, serving as a Deacon and a Trustee. He loved his large family, and was especially proud to become the father of twin sons, as his second cousin, Raymon Meyers (08-00854-01, Volume II, author of the one volume 1910 *The Tingley Family* on which this revision is based) wrote to him on Nov. 28, 1934, when he sent him an up-to-date copy of *The Tingley Family* noting: "You will not find many twins recorded in the book and I do not remember of any by the name of Tingley. So yours is an unique case and you can well be proud of them." His family appreciates the fact that though "Dad lived in a rural farming community and lost his father at the tender age of seven, he rose to the occasion, and with faith, courage and determination, he went to work to help support his family, competed with the best in sports, and grew to be a respected, successful leader at work, in the Church and in the community where he lived." With her new car, Ethel became an avid traveler all around the U.S. and Canada; visited her scattered children frequently; and gave of herself freely in calling on many sick and shut-ins as she tried to be of service to her friends and neighbors. She was an excellent cook. Ethel was an active member of Blakely Baptist Church, taught a Woman's Bible Class and provided dependable leadership in the White Cross and American Baptist mission work.[803]

Erwin was a professor at the Univ. of WI. Clara was a dress designer.[803]

"Milton Tiffany raised his family on his farm near Tunkhannock, PA. All of his sons became farmers and his daughters married farmers.

"Let it be said to the credit of our ancestors in the Tiffany line that all of them from Humphrey Tiffany down to the present generation have followed the ancient and honorable vocation of agriculture. In an age so sorely pestered with human parasites, we who look back upon such an ancestry have reason to be proud.

"I am indebted to my father and mother and to other relatives for the care and effort with which they have collected and preserved the records supplementing those found in the book, *Tiffanys in America*.

"Many letters and clippings have been furnished me, containing most interesting material bearing directly upon the history of our immediate ancestors. I herewith express my gratitute for the help received. The many hours of work which I myself have spent in this task will be more than repaid if the record of the lives of our worthy pioneer forefathers engenders in us a respect for their sturdy qualities and a determination that present and future ideals and attainments will carry forward the hope and aspirations of the past.

Erwin M. Tiffany, March 11, 1922"

The following was written by Frank Potter when he was 90:

THE HISTORY OF THE POTTER FAMILY

(This was written partly from memory, told me by relatives partly by my grandfather, Albert Potter, when I was a very small boy, about 5, 6, or 7 years of age.)

My grandfather, Albert Potter, was born in 1805 in Susquehanna County, Pennsylvania, on a small farm and lived in that locality until he was near thirty years of age. Albert Potter had told me his grandfather was a Canadian Frenchman. My grandfather, Albert Potter, as I recollect had two brothers and one sister, Tingley Potter, Noah Potter and Liva Potter. My grandmother, Gerusha (Bingham) Potter was born in 1806, in or near Binghamton in Broome County, N.Y. The town, Binghamton, was named after her father. Her descendants, Binghams, came to America in the 1600th year on the celebrated ship the, Mayflower, and landed on Plymouth Rock

in what is now, Plymouth, Massachusetts. It seems in early years of Albert and Gerusha they lived near the state lines of New York and Pennsylvania.

They became acquainted attending extras like cornhusking parties. In those days they would cut the corn and tie it in bundles and stack it up in the barn lot and all the young folks would gather for a husking party, both boys and girls, and if any boy found a red ear, he was entitled to kiss his nearest lady and the same with the girl. They also had maple sugar parties. The farmers would tap their maple trees in autumn and put the sap in containers and at the right time, would invite all of their neighbors, young and old to a maple sugar making which had to be boiled in open, large caldron kettles for several hours. During that time of course the young folks would have their fun. I am sure some of your older relatives still living in that locality may know or have been told at least how people enjoyed life at that time. All I know about that is what my dear, old grandfther, Albert, told me. (I am not sure about his right name as you may find other items in this epistle from memory pronounced wrong or spelled wrong.)

This is one thing I have thought of doing for several years but never got energy to do - but my dear 2nd cousin, Ruth Lucille Sharpe, has asked me to do so, so I have started and I do not know when I will finish it but I think I will have plenty of time as I was 90 years young on February 5th, 1961, and still going strong, caring for myself and my dear wife and companion for 63 years. She passed away on December 12th, 1958 - she would have been 84 on December 13th, 1958.

As time passed in the early 1800's, Albert Potter and Gerusha Bingham lovers became married on or near 1825. My grandfather had told me many things he had done during his early boyhood and manhood life as he lived at my folks home for several years. About 1840, grandfather and grandmother decided to go west with their family of two boys and perhaps one girl. Henry Potter was six and I think Harvey was four. They started west in a covered wagon and span of horses and in very modest circumstances. They had a rough time, lost one horse on the way and had to continue with one horse. Some of the Potters had come to Illinois before and their intentions were to join them in Lake County, Illinois where there was 52 lakes including, Lake Michigan.

I think Tingley Potter and Liva Potter had made the trip before them, possibly with some of the Mansers as you may know Liva Potter married Christopher Manser and lived in Lake County near Hanesville where I was born, February 5, 1871. I cannot tell how long they were making the trip as they were obliged to kill game as part of their food. They finally landed on the banks of Lake Michigan at Fort Dearborn, now Chicago. As I remember, grandfather told me there were only four dwelling houses there at that time. They were only here a short time, then continued on their trip to Lake County - about 50 miles north - where they met up with relatives near the Wisconsin line in the locality where Jack Benny was born, (some few years later, but he is not as young as he used to be when he started driv-

ing his Maxwell.)

I do not seem to have the details of their living during the next few years but I do not believe the living went too pleasantly and the family became quite destitute. It seems grandfather's only effort was to hunt and fish to procure food for the family and the family had increased to seven children and none of them large enough to work and hardly had enough clothes to cover them so they could go to school. My grandfather never told me much about those years and the things that happened but my father told me some things. It seems things went from bad to worse and the family was broken up, and when my father, Harvey Potter, was 8 or 10 years old he left home with nothing but rags on his back and barefoot. For some reason that I do not know, he was about five miles from home and he met a man by the name of David Rich. He already had a large family but it seemed he could always use one more and he asked father to come in and live with them, which he did. He lived with them and worked and went to school. My father had very little schooling as he never was able to read or write well and as the years passed, he continued to live and work for David Rich and became very much attached to the Rich family. David Rich and Maria Rich, his wife, became very fond of him also, and at the same time he became very much in love with Eliza Ann Rich, who finally became his dear wife and my dearly beloved, mother.

Grandfather, Albert Potter, had drifted away from the home and no one knew where he was. Henry Potter, the oldest boy had gotten a job going with a man to California taking a drove of horses. He was never heard of after he left Lake County but it was presumed that Indians probably had taken the horses and killed all the men with them. The other two boys, Alonzo and Edwin were small but they did work and tried to help their mother and with the help of near neighbors and relatives they did live. The girls had been placed with friends or relatives so you can see that most of us living now do not know what hardships were when my grandfather was young.

He cut grain, wheat and oats, with a hand sickle and threshed it by hand with a hand flail. They finally advanced to a reaping cradle which they thought was wonderful.

Soon after father and mother were married, grandfather and grandmother Rich, fitted them up on a rented farm by themselves and they lived on or near this same farm for several years. In 1863, things became very serious as history tells us, my father and mother moved to Libertyville where Adlai Stevenson now lives, and rented a hotel. They now had one son, Henry.

Lots of young men had gone to the army, Edwin Potter was too young but Lonnie Potter had gone and was finally killed. My mother's brother Beau Rich, was also killed. My father, Harvey Potter, did not have to go as he was married and had a family but in 1864 he was hired by a man as I remember being told, if in those years you were eligible to go and did not want to go, you could hire someone who was not eligible so father decided to make the deal. I think it was $1500 or $2000 and he went as far as Chi-

cago and the report came that the war was over so he came back to Libertyville to be with his wife and boy. In the meantime, my grandfather, Albert Potter, had joined the army and stayed until the end and came back to Lake County but not with his wife.

Some years later, father moved back near Hanesville on a farm near the Rich's home and later bought the farm where myself and my sister, Jennie, were born. Soon after buying this farm, the biggest fire ever known up until 1871, the whole town of Chicago burned to the ground and in 1872, when I was a sickly, puny baby, father and mother, Henry, Hosea, Hattie, Addie and myself all moved to Chicago. Father took with him 4 teams and 3 men to help him drive and these men and himself hauled the debris to Lake Michigan and dumped it in the lake so as to build up the town and make more land. We lived there for two years and during that time had rented the farm. At this same time my uncle and aunt, Witt and Clara Styles, with their family lived in Chicago. I was only 3 when we moved back to the farm and I do not remember too much about them only Jennie and Frank Styles. Jennie Styles Sharpe was as you may know, Ruth Lucille Sharpe's mother.

After finishing the job at Chicago, the Potter family moved back to Lake County on the farm where I, Frank Adelbert Potter, was born on February 5th, 1871. They have told me the thermometer read 25 below zero and there was a lot of snow and father had to go with horses and sleigh for the doctor, however, in those days they had wonderful mothers and neighbors to take care of all emergency cases. After moving back on this farm in 1874, father bought 80 acres adjoining and began to improve the buildings and increase the number of livestock. First, he enlarged the house by making another bedroom downstairs and a new porch. It did not need much improving as it was a very large house with kitchen, dining room, living room, two bedrooms downstairs and four bedrooms upstairs and a full basement. A short time later he began improving the barn, making a full basement room to stanchion 30 milk cows with a bull and calf pen at one end and a grain and feed bin at the other, driveway for a wagon or sled between the two rows of cows, headed toward the outsides. Above the basement was room for about 8 head of horses and a box stall, and in front of the horses was a large barn floor to drive in and unload hay in the large hay mow. I think this barn was more than 100 feet long and 50 feet wide. Later on, he built an addition joining this large barn to maintain a feed grinder and room for more hay above and shelter below and also erected a 40 foot windmill on an everlasting water well 50 feet deep. In those 5 or 6 years he built an ice house and milk house adjoining. This milk house was equipped with a Cooly creamer, large two barrel churn and a dog power machine to operate the machine and a large table with a long roller like a rolling pin to make butter. After the butter was made it was packed in wooden firkins holding about 50 pounds each. In winter these would be stacked to some 20 or more, then father would butcher several hogs and perhaps a few veal calves, then he and mother would load all of this produce in a bob sled and drive to Chicago to the market. I remember my father telling me he some-

times sold to the firm of Miller, Armour, and Ausgood. This was the beginning of the wonderful Armour Packing Company of Chicago. They made several trips like this and they would always bring we children lots of nice candy. At that time there were five of us, three boys and two girls, all older than me.

About this same time in 1875 I remember a thing that happened as I was 4 years old but I will give more detail in the history of my own individual life and the life of my own immediate family.

As time pased on in 1876 my sister, Jennie Maud Potter was born on January 15th, 1876. I remember very distinctly how nervous my father was and had grandmother Rich and Aunt Lucina Handee to come to our home but, of course, I did not know what for as I was too young to realize what was to happen, but all turned out well and we were all happy to know we had another little sister to grow up with us. Henry was then 14 years old and I well remember one cold morning when he came running into the house crying with a broken arm as he had been kicked by a horse. We were all very much alarmed but father took him to the doctor and had it put in a cast, but as it was broken at the elbow, it never healed correctly and all during his long lifetime of 98 years, he had a stiff arm, but it did not seem to keep him from using it to a good advantage. At that time my brother, Hosea Potter was 12 years old and big enough to help at the farm chores and milking. Part of the time father kept a hired man - I do not remember how the housework got done, the two girls would have been Hattie 10 and Addie 8, both old enough to go to school. As it was Henry's left arm that was broken, he was soon able to go back to school.

We lived about one and one-half miles from the Grayslake School, now a railroad and quite a large town. The lake was very close to the school and we always took our dinner and in winter at the noon hour we would skate and when the weather was warm, we went swimming - only boys seemed to go swimming then. There were five of us school age and we all walked except in very cold weather and then father would take us. I remember skating all the way to school several times. When the ground was covered with solid ice, I remember one very cold winter we filled our very large ice house with ice 24 inches thick and the men sawed it in 24 in. squares. Continuing on through those years, Henry finished our grade school and two years in Wanconda, Ill., high school, and two years later, Hosea went to Valpariso, Indiana, college for one year and the next year Hosea went to school in Bumner, Iowa, and lived with our Uncle and Aunt, Orakine and Caroline Ferrand and worked in their grocery store. Those were the years of 1878, 1879, 1880 and 1881.

My father bought a general store in Hainesville, Ill., from Theodore Slusser. Hainesville was our post office at that time. There were 3 stores in Hainesville and we still lived on the farm for a short time, perhaps 6 months, then Henry Potter got married and he and his wife took charge of the farm. We had previously moved to Hainesville. Father and Hosea took charge of the store and Hattie, Addie and I went to school in Hainesville,

and perhaps Jennie at least for one year, I was then 11 years old. Father decided to start a wagon route to sell merchandise, buying especially eggs and butter and Hosea was to do the peddling.

In the autumn of 1883, father decided we should make a change in life where our large family could be close together and have a bigger opportunity to develop and possibly become more prosperous. He further decided to make a trip west and visit a cousin, Henry Manzer, living on a large farm near Deerfield, Missouri, just 10 miles east of Fort Scott, Kansas. Henry, was the son of Christopher Manzer, who lived in Lake County, Ill., only a few miles from Hainesville, and they had been boys together. While visiting, they took several trips to see the country - a trip to Arkansas by mule team and spring wagon and the land surrounding Fort Scott and Deerfield, also a trip to Wichita. He then came back to look things over near Fort Scott again and became interested in a large farm seven miles southeast of Fort Scott and eight miles southwest of Deerfield, but did not buy at that time. He went back home and decided to take his son, Henry with him to see this 680 acres of land. He still owned the store and 200 acres of land besides a large dairy herd, farm equipment, horses, colts, hogs, chickens, etc. They both liked the Missouri farm very much but could not close the deal until he had disposed of his Illinois property. They returned home and he began the disposal of his property, sold the store and wired the owners of the farm. This was perhaps in January, 1884. The firm of Durkee and Stout, a large firm of land owners and implement dealers made the sale. My father sold the 200 acres in Lake County, Illinois, and in the meantime, father and Henry, my brother, and John M. Fenlon who was engaged to my sister, Hattie Potter, came to Fort Scott, closed the deal for the farm and purchased a part of the farm equipment as that was about March and soon would be time to begin planting. At that time there were two houses on the farm, the main house for our family of seven and the other for Henry and his wife and baby boy who was born on December 2nd, 1883. Father and Henry returned home to Hainesville and John M. Fenlon stayed in Missouri on the farm. Father and Henry then made arrangements to sell at a farm sale all the equipment we did not need along with the store on April 2nd, and this proved to be the largest farm sale that had ever occurred in that locality. Father reserved quite a lot of the useful things to take to his Missouri farm - five head of horses, our large dog that had churned so many hundred pounds of butter on the dog power churn, household goods for both families and so he obtained a large freight car to bring the contents to Fort Scott. We had to take all of this eight miles to Garnee our nearest railroad station at that time. Everything sold well at the sale so all we had to do was load up and start on our way to Fort Scott. With the good neighbors and relatives help we got all loaded and in the freight car and Henry and Hosea rode in the box car with the things.

Father, mother, Hattie, Addie, Jennie and myself and Henry's wife Mayme and his son, Llewellyn, followed on the passenger train. We arrived in Fort Scott, Kansas, on April 10th, 1884, at about 5:00 p.m. by way

of Kansas City over the Frisco Railroad. When we arrived, we had to transfer to the M.K. and T. to go to Deerfield to stay all night with Henry Manzer and until we could get located on our own farm.

I remember very clearly how we were transferred from the Frisco railroad to the M.K. & T. depot. Mamie Taylor's father had a one horse high wheel wagon for that purpose and father and I with the help of the women, loaded our luggage and the three girls in the back end of the wagon and mother, Mayme and the baby boy, Louise, sat up in the seat with Mr. Taylor, and father and I walked. When the M.K. & T. passenger train arrived, we got on and went to Deerfield, only 10 miles and Mr. Manzer was there to meet us with his wagon and we all went to his home for the lovely reception by his wife and one daughter, a very large, beautiful home, and by the way, it is still standing and in good condition. That was on April 10th, 1884.

The Manzers were having a large barn built by two very well known carpenters who lived in Garland, Kansas, Albert Ham and his father. Next day, Saturday we contented ourselves as best we could on the farm and surroundings and I learned that the carpenters, the Hams' would be going to their home at Garland for the weekend, and I had learned they would go near our new home, so I asked them if I might ride with them and they agreed to take me to the nearest turn and I could walk the balance of the way which was one and one-half miles. I did this on April 11th, 1884. I found John M. Fenlon, who I was well acquainted with as I knew he was going to be one of our family. They were married soon after our arrival in Missouri. On April 12, Easter Sunday, which was the next day, father borrowed a team and wagon from the Manzers, loaded the luggage and the rest of the family and drove to our new home. We were all very happy of course. Father and mother had acquired food for all of us for a few days as our box car and equipment had not arrived yet. We had our Easter egg dinner out on our farm lawn of lovely green grass and passed the time as best we could. I kept very busy most of the time just looking around. I was 13 years old on February 5th, 1884, very active but slim and bony.

Next morning, Monday, April 13th, 1884, we heard in some way the box car had landed in Fort Scott so father, John M. and I drove to Fort Scott with two wagons to bring home the contents. We all stayed at the main home for a few days, then Henry and his wife and baby moved to their new home which was one-half miles from our home. By this time, John M. had ploughed and planted 40 acres in corn but the weather had been cold and the corn had to be replanted. We later found out this was not unusual and we finally got things all straightened out. Father bought a few cows and chickens so we managed to begin living soon after we landed.

I started to school along with sister, Jennie. The other girls and Hosea did not go. I was a very lonesome boy for a long time but managed to keep busy. There were several ponds on the farm and lots of catfish so I had fun fishing, mostly on Sundays, at least for two years.

Henry continued to work for father and also Hosea and John M. Fen-

lon and one or more hired men. Hosea soon became acquainted with the young folks and began to know the Hiller family who lived about six miles from our home. As you may know, Hosea married May Hiller in 1887, and I, Frank, married Ella Hiller in 1895, December 31st.

About 1886, my grandfather, Albert Potter, came to live with us and he was my pal during the balance of his life. He only lived about two years and is now buried in Deerfield, Mo., cemetery where all our loved ones who have gone are buried.

In 1887 or 1888, Hosea was married and father sold him a part of the farm and built a new house and barn for them and he also sold Henry a part of the farm and he then went to work for himself. In the meantime, John M. Fenlon married, Hattie Potter, and father had bought 160 acres joining his present farm, and it having a house and barn on it, they moved on this and started their farm life. About 1890, Addie Potter, married Jerome Stembel and father then bought another farm adjoining the original farm consisting of 120 acres, also with improvements and they occupied this farm. Father and mother always wanted their children near them so now all the children were married with the exception of my sister, Jennie and myself.

This arrangement did not last too long as the Fenlons moved to Kansas City and the Stembels moved to Colorado, but they all drifted back before father passed away in 1906.

During the years of 1884 until 1895 we raised from 200 to 400 acres of corn and usually 100 acres of oats each year and some wheat and in winter time fed 100 or more steers for the fat cattle market and we also had 100 or more sheep and marketed the fat ones and lambs in Fort Scott, Kansas.

Our post office was Fort Scott, P.O. Box 600, for about 10 years until we finally got rural mail from Deerfield, MO.

In the year 1888, father, bought one-half interest in a steam thrashing machine and in 1891, I went with the machine and hauled water. The next year, father bought the other party out and put me in charge and I managed the machine for two years. I was then past 21 and was drawing pay by the month, $20.00 per month. Then, after thrashing for two years, I decided to farm for myself and rented some land nearby and lived at home. Finally on December 31st, 1895, I got married to Ella Hiller and we lived that winter of 1895 and 1896 with father and mother and sister, Jennie, who was still at home. In 1896, father and mother and Jennie decided to take a long trip by railroad to California and rented the farm to me.

While they were away, Hosea, sold his farm of 120 acres or really traded it for a harness shop in Fort Scott and had moved to Fort Scott before they returned. That nearly broke father and mother's heart but he soon bought the farm and sold it to me, Frank Potter.

In the fall of 1896, my dear Ella and I were happy to move into our own home and in the meantime Jennie married Ervin Mosher, and they moved in with father and mother and helped with the farm work.

Things drifted along that way for several years and on July 13th, 1898, our first boy, Harold, was born. It now came to me that 120 acres was too

much for one man to farm but not large enough to afford a hired man, so I began thinking of selling and buying a larger farm. I had one offered me of more than 600 acres at a bargain price by Henry Manzer near Deerfield, Mo., and he told me I could have all the time I wished in which to pay for it. I took the matter up with father, as I always did in everything (even my love affairs which I had several) and he and mother decided to sell me 40 acres joining our farm so we did that and continued to live there and had a hired man and hired girl most of the time.

By renting some more land we had 100 acres of corn and some oats and hay land and pasture for sheep, hogs and milk cows. Henry continued to live on his farm of 240 acres but Hosea had moved to Fort Scott, Kansas, and was running a harness store. In 1901 he decided to sell this store and move to Oklahoma for the grand opening of the state and located in Indiahoma, a new town just started.

That same year my dear Ella became bothered with asthma so in the fall of 1901, I took she and Harold to Houston, Texas, for the winter. Harold was 3 years old, and in the spring of 1902 she came home feeling much better.

In the year 1902 or 1903, father visited Hosea's in Indiahoma, Henry built a silo and I also built one. In 1901 was a drouth year but the next year we had a bumper crop and we all felt more encouraged and satisfied for a few more years.

January 1st, 1906, our daughter Florence was born and we had remodeled our home and made it much larger. In August, 1906, father became ill and continued that way for four months and then passed away. We never knew his trouble but it was yellow jaundice and he wasted away until he was just skin and bones when he died. Five days before he passed away he called in a lawyer, Mr. John Crain and a witness, Mr. Hansford, and he made his final will. He insisted that I stay near and help him but that was the most sorrowful job I ever did, but I had always been his bookkeeper since I was 17 years old and it was my duty. Mother and I were executors of the will. Just a few days before he passed away, he advised me to sell the farm and move to town and take life easier as he thought I had education enough to live without so much hard work as I had gone two years to high school in Fort Scott and two years to Kansas State Normal College in Fort Scott, Kans.

As I have told you, father had very little education. He learned what he knew the hard way and by experience. Mother continued to live on the farm until we got the estate all settled and then she decided to quit housekeeping and just make her home with some of her children. Most of the time she lived with Jennie and family. Of course, she had an income from the farm while she lived. She passed away in 1922 so that was the end of Harvey D. Potter and wife.

I will continue to give the remaining years up until 1961 about the existing Potter Families.

Marie Paula, daughter of Thomas Francis, Sr. and Muriel Helen (Jones) Bergin, of Waltham, MA, born June 22, 1943 at Waltham, MA. Charles is a psychologist; Paula is a teacher and guidance counselor. Charles is an avid bicyclist, having ridden from Bangor to Washington, DC a couple of times, been to the White Mountains and the Adirondacks, and seen most of NH and ME by bicycle. The following is from an article he wrote for the *Bangor Daily News* in 1990 about the annual bicycle race up Mt. Washington.[803]

"This unrelenting ribbon of pain, reached up...up and into and above the clouds, leading each of us to the summit of Mount Washington. This true Beast of The East, an alternately paved and hard-packed dirt and gravel undulating sinew of dragonian earth, is always pitched up, never allowing us to catch our breath; disturbingly eroding our aerobic reserve until we are each experiencing a major indebtedness...

"Sooner or later, usually later, I make it to the summit. As the "Old Man" at 47, my preparation for this annual agony involves a series of short, long and hilly rides, coupled with year-round group aerobic exercise, this aimed at achieving two goals: Arriving at the 'top' before the sweep of race officials picks up the lagging riders still on the mountain at the two-and-one-half hour mark; and secondly, prevention on the way up of the 'Big One' - an ignominious fate not unthought of by most riders of my bulk and cardiopulmonary insufficiency.

"As we waited at the starting line with three hundred to four hundred other racers, the butterflies of fear just a fluttering, we could look to the summit and see sparkles of light as transport vehicles, our ride vehicles back down the mountain, inched along, resembling far away satellites against the barren space of the mountain. The clouds were enshrouding neighboring peaks, their imperceptible drift portending an uncertain summit condition.

"Two years ago, we were drenched in rain fired by gale-force winds, barely able to see even the ground through the pea-soup fog. Today, at 6 a.m. the summit was said to be ice-covered and having a wind chill temperature of -13 degrees.

"How to dress is a perennial debate - as is which tires to mount, and gearing to place. Will it snow, rain, sleet? How windy will it be? Now it was 9:30 a.m. and the bottom temperature was 45 degrees, but the wind was swirling. I knew I would get warmer for a while as my body rebelled against the opposing gravity of Mount Washington. But how warm? How chilled, as the temperature dropped as we climbed, sometimes dramatically, as wind blasted us on switchbacks?

"Then we were off...the race was on...for some. For me, a survival experience, a test of the climbing muscles pitted against The Mountain. My engine, my heart, would hopefully pump in support.

"This year I made it to about Mile Five of the eight-mile trek before I had to place a foot on the ground, to rest a bit and calm the coronary clatter heard in my ears. At the end, a seemingly vertical finishing climb up a 20 percent grade led me mercifully to the finishing line..."

TX, born Dec. 5, 1895 at Blanco Co., TX; died Dec. 5, 1991 at Wichita Falls, TX. Frank was an orthodontist; Rosemary, a real estate broker. Frank first worked in a lumber mill in East TX, and went to business school, then became secretary to the bosses in the lumber mill and saved enough money to go into the theater business in Ada, OK. Next he went to Atlanta Southern Dental College (now Emory Univ.) where he graduated with honors. He then set up his first practice as a pioneer dentist in "Indian Territory" in Pahawska, OK. Later he went to the Dewey School of Orthodontia at Columbia Univ. in NY. After that he went to work as an associate with the top orthodontist in Waco, where he met Rosemary. In 1930 they moved to Wichita Falls and set up practice. In addition to orthodontia, he worked in the church, the Rotary Club, and helped form the first Boys Club in Wichita. On his afternoons off he had a hobby of chasing oil leases, and even bought an old spudder drilling rig, hoping to get enough together like all of the other doctors of the time to set themselves up in their old age. He was elected to the National Board of Orthodontia and was president of the Southwestern Society of Orthodontists.[803]

09-02480-07 MELVIN DEZELL CRABTREE[10] (Henry[9], Jane[8], John[7], Jemima[6], Josiah[5], Samuel[4], Samuel[3], Samuel[2], Palmer[1]), of rural Alden, IA, born June 23, 1905 on farm 5 miles SW of Dows, IA with Mrs. Melvin Peterson, a neighbor, as midwife; died Sep. 29, 1985, after a short illness; married June 1, 1926 at bride's home, Zion, IL, Grace Elizabeth, daughter of Theodore Gerhard and Amanda Ozella (Davis) Dreyer, of Zion, IL, born Jan. 8, 1906 at Zion, IL with Elizabeth Dreyer, Grace's grandmother, as midwife. After one year of high school Dezell went to work at John Manwell Roofing in Waukegan, IL. He also worked at Zion Toy Factory in Zion, on his brother, John's farm, and as a salesman for Zion Office Supply Co. in MO, AR, and KS. After marrying, he worked at Oakes Metal Polishing in North Chicago; farmed a year and built a little house in the country at Zion, then went back to work as salesman for Zion Office Supply at Chicago and North Shore cities. In Feb. 1937 they moved to a farm near Buckeye, IA and then, in 1939, to a farm near Iowa Falls. He bought a farm near Alden in 1944 and lived there[585] until his death in 1985 at age 80. Grace, at age 88, continues to live on the farm, in Oakland Twp., Franklin Co., IA, with help from the children. The following was told by Dezell:

The Wreck of the Old Jackson Two

Back in the year 1908, when I was just a small boy, my father, Henry Crabtree, bought his first car. It was a Jackson Two Cylinder and it would go along quite well on level ground. But to go over the hills we would have to get out and push.

One bright Sunday, in early summer, Mother, Father, and us kids went to church and Sunday School at Vernon Center. By pushing up the hills we made it. Mother was the Sunday School Treasurer and she carried a bag full of pennies, nickles and dimes. On the way home father said, "I am tired of having you kids jump out and push, this car is going to make it by itself." So he pulled the hand throttle clear down, but just then his hat blew off and he turned to see where it went. He lost control and we ran off the

dirt road and went over and over. Pennies, Mother, Father and Kids, and a smashed Jackson were all in a heap. Mother had a broken arm and father was black and blue from his back to his heel. I had a gash in my head above my eye and swallowed several pennies.[585] [803]

Park Cem. at Fort Dodge, IA. Winnie taught in the rural schools of the Scranton area. She was a member of the Methodist Churches in Churdan, Fort Dodge, Omaha, and then in Cherokee Village, and a member of the United Methodist Women. Winnie and Frank lived on a farm south of Scranton for three years, and after farming in WI a few years they moved to Churdan in 1917, where Frank operated a barber shop with Walter Daniels and Foss Davis. In 1926 they moved to Fort Dodge. Frank joined the First Methodist Episcopal Church in Scranton and was an active member of the Y.M.C.A. for many years. He was a member of the Odd Fellows, Masonic, Modern Woodmen and Homesteaders lodges[304]. After her husband's death, Winnie secured a position as seamstress in the alteration department at Younkers Dept Store. She was well qualified for this position as she had made many dresses for her six daughters. When she decided to retire, she sold her home in Fort Dodge and moved to Omaha where she lived with her daughter, Marian and son-in-law Paul Nelson. After a few years there, she moved to Cherokee Village, AR and lived with her oldest daughter, Audrey and son-in-law Beryl Carrick. She was visiting her daughter, Elsie and son-in-law Don Porter, in Yorkville, IL when she died of cancer.[435] [803]

Memories written by Winifred:

"My father, Newton Brewer Sheldon, was a widower with three children, Abbie, Charlie and Emma, ages about 10, 8 and 4 years. My mother, Dora Louise Dobson Crabtree was a widow with one child. Her first baby, Madge, died at 6 months. Her Silas was about 6 months when his father died.

"Silas was about 11 months younger than Emma so both were 2 or 3 years old when my father and mother married in January 26, 1880. They lived in Illinois at that time and came to Greene County near Scranton about 1882, I am not sure. My sister Elsie was born on May 11, 1883. Then I was born February 13, 1888 on a farm about 4 miles S.E. of Scranton, Iowa. Old Lincoln Hiway went by there. As I remember, it was an old house - 2 bedrooms downstairs and one large bedroom upstairs and a living room,

kitchen and pantry downstairs. The windmill was just a few steps from the kitchen door. A cave was near where our fruit and vegetables were kept. Once a bad storm came and we went to the cave. No damage to us though, but a mile south and east had ruined buildings.

"We had a large orchard south of the house and a grove of trees to the west. Some were catalpas and I remember playing with the fallen blooms. We had about 20 walnut trees down by the road. Our house was set quite a ways back from the road. The shade trees were west of the house and went clear to the road. A big garden with currants, gooseberries and strawberries along with many vegetables was in an open area. My mother was a hard worker and I expect she tended the garden. I remember especially the Whitney apple trees and surely ate my fill when the apples were ripe.

"Just before I was 8 years old, Fern was born on January 8, 1896. I'm not sure if it was that next summer or a year later that the new house was built. Uncle Oscar was with us and he helped build. The new house was square, a big bedroom, living room and dining room down and 3 bedrooms upstairs. The kitchen and pantry from the old house was moved and fastened on the new house. We had a big cistern, and a pump and sink were in the kitchen. We ate in the kitchen. I remember standing on a box and washing dishes, dishpan on the table. I must have been school age then but breakfast dishes had to be done before I went to school.

"The school house was across the fields a mile away. We walked. A neighbor boy and girl went with us. I suppose my sisters, Elsie and Emma, and brother, Silas, went too but I just can't recall about them. We carried lunches in tin pails and coming home sometimes drowned out ground squirrels using water from where the tiled ditch opened into a little creek. We carried big sticks and killed garter snakes too. At school we played baseball, handy over the school house, Fox and Geese and pump pump pull away. We got what was called head marks in school. We stood in line and if one missed a word in spelling and the next one spelled it right, that one went ahead of one that missed. I was good at spelling and got many head marks. I have a picture of that school house and a group of us kids.

"The old house had a steep stairway and I fell down several steps several times. I must have been awkward. I was called pokey too and told to straighten up. I must have had a weakness in my shoulders even then. I had a play house in the grove of trees, used sticks to mark the rooms and broken pieces of table were for dishes. I had an old cookstove in it. When I had playmates, we used long sticks with string fastened on and used them for horses with appropriate whoas and get ups as we cantered along.

"We had a big straw stack not far from the house. (The grain had been thrashed out.) Abbie's lived down near the Raccoon River some and they visited often while Peter and Mabel were about 4 years old and we would go round and round the straw and pull out the binding twine that had held the sheeves together, so we had lots of twine to tie things up with.

"We had a big low hoghouse and swallows built their mud nests under the eaves so I liked to look in the nests. Swallows were good insect catch-

ers and at dusk the air was full of them flying around.

"When I was 6, I had the mumps. Elsie did too. It was hot weather and we felt so bad. Several sacks of flour were stored in one of the bedrooms and we would go in and lay on them as the room was cool.

"My mother had bees, must have been a dozen or more hives. She made a hat of screen and cloth and pasteboard that covered her head and rested on her shoulders to wear when she tended them. She had a little bellows affair in which she burned something that made quite a bit of smoke which she used when taking the honey out of the hives, it made the bees torpid. The honey was in frames about 18 x 10 inches. She had a machine, I guess you would call it, like a tub and put 3 or 4 of these frames in after the top of the beeswax had been cut off. Then the machine was whirled around and the honey flew out. It was quite a job. There would be quite a lot of honey cling to the beeswax that was cut off and Silas liked it and ate quite a bit and later he was sick from it. Mama had warned him.

"I remember the woven rag carpets we had in the living room of the old house. When straw was just thrashed, a lot was scattered a thick layer on the living room floor and then the carpet laid and stretched and tacked down at the baseboards. I don't know how often it was renewed. Surely was a dusty mess as it wore out. When I went to housekeeping, we put newspaper or bldg. paper under carpets.

"In the fall we had lots of walnuts to gather in the grove, seems like 20 or more trees. We run the nuts through the hand corn sheller which broke the hulls so they were off or came off easily.

"I brought tadpoles home once from the little creek, put them in a jar of water and in a few days they had lost their tails and grew their legs and were hopping around in the sink.

"I remember once my mother dipped a slice of bread into the can of cream, put it on a plate and put sugar on it. I'm sure it happened more than once and was it ever good!

"Once I choked on a piece of bone and my mother turned me upside down and shook it out. I had a chair that was higher than ordinary ones, to sit on at the table. One morning I told of a dream I'd had, that someone came in and stole it. I could hardly believe it didn't happen.

"We had neighbors across the road who had several little girls and I liked to go over and play with them. I expect I was a pest.

"Emma taught school when I was about 10, about 3 miles from home. I remember walking there one day carrying a flour sack full of popped corn which she made into popcorn balls to give to her pupils on the last day. My school must have been out.

"When Fern was a baby, she was cross. Milk didn't agree with her and she had exzema and was an unhappy baby. We had a little cart - two wheels on a box and a tongue to haul it by and she used to sit in it on pillows or quilts and I hauled her around.

"My father had rheumatism and his legs and back gave him lots of trouble. I remember of his standing with one foot on a chair and rubbing his

leg. He finally had to go on crutches. We had a large farm and had to hire help and that was one reason we moved into Scranton. Silas was helping but after that he went to North Dakota. About 1903 in August he died of a bursted appendix. That nearly killed my mother. She surely had more than her share of grief losing her loved ones.

"We always had cats and kittens around the farm. My half brother, Charlie farmed a place near Churdan. I don't know what caused it but he had a mental breakdown and was in a mental hospital at Clarinda for several years. I don't have a record of his year of birth or death. I think he was younger than Abbie. At one time he farmed up near Churdan and I visited him. He had a married man helping on the farm. He had a dog and I asked what its name was. He said, "You know." I asked again and got the same answer. I got mad and said I didn't know. It turned out the dog's name was "U No." Later Charlie was sick and then was committed to an asylum in Clarinda, Iowa and was there several years til his death.

"I remember once my mother took me by horse and buggy to hang May baskets. One was to Alta and Charles Cleveland about a mile away. I'm not just sure if his name was Charles but years later he was Greene County Treasurer.

"On the way to Jefferson a new road going down a steep hill was opened. It was very steep and before it was cut down I was with my brother, Silas, and he drove down that hill. Had a single horse buggy. I was scared stiff as it seemed like we were going straight down.

"Another time I was with my father and mother coming home from Jefferson. A paper or something blew across the road and scared our horse. We were on a rather high grade and the horse went down in the ditch and some way the shafts broke and the horse was facing us. We were just entered the last mile stretch for home so were likely about 1/2 mile from home. I run home for help and the men went to the rescue. No one was hurt. The end."

Hosp., Sackville, N.B., old age, buried in Sackville Cem. at Sackville, N.B.

Job was a carpenter and one of Sackville's oldest and most distinguished

citizens. He grew up in the local area and with the exception of two years was employed in Sackville for over 40 years. He was employed at Mount Allison Univ. in a number of senior maintenance positions and did not retire until well past 80. He often recalled the days before oil lamps when candles and grease rags were prepared at home during the summer for use during the long winter nights. He termed the invention of the airplane as the greatest single advancement during his lifetime. He was one of 13 children born to pioneer parents. He attended the Baptist Church and resided on East Main St. with his daughter, Hazel Matheson.[803]

Hosp., Sackville, N.B., long illness; married Aug. 4, 1909 at , Hannah, daughter of Robert and Eliza Ann (Currie) Collicutt, of O'Leary, P.E.I., born Sep. 30, 1888 at O'Leary, P.E.I.; died Dec. 11, 1941 at Midgic, N.B.; both are buried in Midgic Cem. at Midgic, N.B. Burton was a retired farmer, a member of the Midgic Baptist Church, and one of the last surviving members of the Eighth Canadian Hussars. His main interest was horses and he never had a tractor on his farm. At age 90 he walked downtown at least once a day, weather permitting, and one of his favorite spots to visit was the Sackville Harness Shop. He clearly recalled the first telephone poles coming to Midgic, as well as the first bicycle and the first car. "George B. Estabrooks brought the first bicycle, with a big wheel in front and a small wheel in back. The teacher let us go to the window and watch it go by." The first car, a Ford, belonged to John Hicks. Burton never had a car, and preferred to walk rather than hitch up a team to go "half a mile down the road".[802]

Dell was a wholesale jeweler. He came to Clark Co., WA from PA as a small child. The family later moved to OR, where Dell was apprenticed to a watchmaker. Later he and Art Kinney established a jewelry store in Arlington. Shortly after his marriage the jewelry store fell upon hard times because the area had been logged out and the loggers had moved elsewhere. Dell then became a traveling salesman for a wholesale jeweler in Seattle, eventually bringing Elsa and their two daughters to Seattle. Elsa had an interest in genealogy. She did much of the early work on the family of Sheldon Ulysses Stearns, her grandfather. In the early 1950s, she prepared a typewritten family history of the Stearns family from the immigrant Isaac, of Watertown, MA. Elsa and several of her cousins used her research to join the DAR. She came to WA State as a one year old with her parents. She was the first girl from Arlington to go to college, graduating from the Univ. of WA.[802 809]

From information supplied by Thelma-Anne:

The family lived, successively, in Aylesford, N.S.; Newton Center, MA; Bridgetown, N.S.; Yarmouth, N.S.; New Westminster, B.C.; and Windsor, N.S., in which places her stepfather had pastoral charges. In 1916, Thelma A. Lewis, as she was then known, went to Boston to train at the New England Baptist Hosp. She graduated in Dec., 1919, and received her nurse's registration in the Commonwealth of MA on Mar. 17, 1920.

For two years she did district nursing in Boston; however, since the Lewises had moved to Regina, Sask., she decided to find work nearer their home. In 1921, she became a public health nurse in southern Sask., and it was here that she met her future husband, James, a school inspector.

From 1931, Thelma was a member of the First Baptist Church, Regina, and of the Friends' Circle for forty years. In 1946 she was made a life member of the Women's Missionary Auxiliary of the Baptist Union of Western Canada. The Canasta club she organized was a source of pleasure to herself, her husband, and the friends who took part. Her interests includ-

ed knitting, gardening and a wide range of reading. Her lively interest in world affairs continued well into old age.

Her marriage was a happy one. Adamant in her decision that her husband should not be moved to a nursing home, she cared for him herself, with the help of the Victorian Order of Nurses, until his death, which took place in their own apartment a few months before his 99th birthday.

After several years of increasingly frail health, Thelma died in the Regina General Hosp. on Apr. 28, 1990.

James Archibald McLeod graduated in Arts from Acadia, Class of 1898, and in 1905 received the degree of Bachelor of Law from Dalhousie Univ., Halifax. He went to Sask. in 1905, where he was soon engaged in teaching, as principal of the Oxbow High School. In 1912 he became superintendent of public schools for the Oxbow-Estevan area, and continued there until 1930, when he became a superintendent of high schools for the Province and moved to Regina. In 1934 he received his B. Paed. degree from the Univ. of Toronto. In May, 1973, he received an honorary doctorate in education from Acadia Univ. At that time he was the oldest living graduate.

After his retirement as high school superintendent in 1940, he taught for three years on the Faculty of Education, Univ. of Sask. He served as a member of the Regina Collegiate Board and was an active member of the Sask. Poetry Society. In his later years he summed up and presented his educational philosophy and practical educational techniques in the publication of his book *Eagle Wing*.

James enjoyed sports; he had been on the Acadia rugby team, and was an ardent golfer well into his eighties. He was a skilled amateur carpenter. His interest in politics was lifelong.

James was married three times and widowed twice, with a surviving child of each marriage. By his first wife, Genevieve McLeod of Brooklyn, he had a daughter, Winnifred Jean (1907-), widow of Oscar William Brunsell, who now lives in Yorkton, Sask.; by the second, Hannah Morse, a son, Squadron Leader Henry Wallace, D.S.O., D.F.C. and bar (1915-44), a Spitfire pilot who was killed in action in 1944.

02 Thelma-Anne,	b. Oct.	3, 1928, Estevan, Sask.

Thelma-Anne attended Davin Public School and Central Collegiate Institute in Regina. She then studied at Queen's Univ., Kingston, Ont. (Honours B.A. in English and History, 1950) and Bryn Mawr College, Bryn Mawr, PA (M.A. in English, 1951), with a further year's study at Radcliffe College, Cambridge, MA. After a few years of searching and working at various jobs, she entered the novitiate of the Sisterhood of St. John the Divine (Anglican), Willowdale, Ont. Though raised a Baptist, she became an

Anglican while at college. She took her First Vows in 1961 and was life professed in 1964. Since then she has worked mainly at the Mother House in Willowdale, as organist and choir director, and as a retreat conductor. For five years (1975-80) she was on the staff of St. John's Priory, and was in charge for three years. She holds the Toronto Conservatory of Music Associate diploma (piano); has studied organ over a period of years; and has composed musical settings for a number of liturgical texts used in the worship of her Sisterhood. Her interests include: genealogy, writing, gardening, sewing, and walking.[803]

08-00356-02 THOMAS ANDREW KINNEAR[9] (Zena[8], John[7], Agreen[6], Josiah[5], Samuel[4], Samuel[3], Samuel[2], Palmer[1]), of Sackville, N.B., born

June 23, 1851 at Middle Sackville, N.B.; died Nov. 10, 1895 at Boston, MA, complication of liver and kidney trouble, buried in Rural Cem. at Sackville, N.B.; married Sep. 5, 1888 by his bride's father at Westmorland Point, N.B., Mary Alice, daughter of Rev. David Charles and Mary Eliza (Moxon) Lawson, of Westmorland Point, N.B., born ca 1869 at Westmorland Point, N.B.; died , 1925 at Edmonton, Alta., pneumonia, buried in Cem. at Edmonton, Alta. Thomas was a lawyer.

From information supplied by Thomas' granddaughter, Thelma-Anne:

Thomas' father was a farmer and blacksmith. The family were Baptists, and there is a record of Thomas Kinnear's baptism in April, 1868. After his mother's death his father remarried and bought a farm in Cookville. Thomas seems to have remained in Sackville, possibly earning his living as a clerk in a law office. In 1876 he is listed as having chaired a meeting at the Baptist church.

During these years, he became involved with the Orange Order. By 1877, when he was 25, he was County Master for Westmorland and Deputy Grand Chaplain of the Grand Lodge of N.B. By 1879 he was Grand Secretary for N.B., and by 1884, at age 33, Grand Master, an office which he held until 1886.

In 1877 or 1878 he moved to Shediac to study law with W.J. Gilbert, Q.C. He was admitted as Attorney in April, 1882, and Barrister in April, 1883. He returned to Sackville, where he began to practice law at the end of August, 1883, in an office located in the Chignecto Hall. In 1884 he built a law office on a vacant lot next door. During this period he also built a hall, which in 1887 he enlarged and rented to the Salvation Army. The office building and the hall are still standing on West Main St., near Charlotte. In 1888 he was appointed Clerk of the Westmorland Circuit Court, an office he held until 1890. Despite poor health, he continued to practice law almost up until the time of his death.

T.A. Kinnear, as he signed his name, was active in the Baptist Church during the 1880's. He served as a trustee several times, and from 1885 to 1886, was superintendent of the Salem Sunday School.

Sometime before his marriage, TAK built a large house up the hill from the old Fawcett's Foundry. The house was used eventually as a seed testing laboratory by the Federal Dept. of Agriculture. It was demolished sometime during the 1960's, but traces of the foundation can still be seen.

Apparently never robust in health, T.A. Kinnear died in 1895 in Boston, where he had gone for treatment. He was buried in the York St. Cem., Sackville, but the grave is not marked.

In an obituary, T.A. Kinnear was described as being of a gentle disposition, making friends wherever he went. He took a lively interest in municipal affairs and was much respected in the community.

Mary Alice studied at the Toronto Conservatory. She was active in the Baptist Church in Sackville. In 1898, she was appointed to a committee to arrange for cleaning the church building. Her name appears on a list of

contributors to a property fund. On the same list there appears the name of A.S. Lewis, whom she married, probably later that year in Wolfville, N.S., where he went to take his Arts degree.

Arthur Silas Lewis (1875-1953) obtained his B.A. in 1901. He was class valedictorian. On July 12 he was ordained and became pastor of the Baptist Church in Aylesford, N.S. During a long ministry, he served in several N.S. churchs, as well as in Western Canada, and finally in Cleveland, OH. He held honorary doctorates from McMaster Univ. and Acadia. Mary and Arthur had a baby daughter, who died in infancy, and a son, Lawrence Roland (1906-1983).

In 1925, Arthur was appointed to the First Baptist Church in Edmonton. In order to avoid the severe winter, Mary Alice remained at the West Coast, where the family had been living, until spring. On the train trip she developed pneumonia and died in Edmonton a few days later. She is buried in the Edmonton cemetery.

INSTRUCTIONS

Two types of numbers will be found in this book. One, the family number, consisting of seven digits. An example 10-04220, where the 10 indicates that the family is of the tenth generation and the 04220 indicates that it is the 4220th family of that generation. The second type of number, the number of an individual as a child, consists of nine digits. An example is 10-04220-02, where the 10 indicates that the individual is a child of a 10th generation family, the 4220 indicates that the individual is a child of the 4220th family of that generation, and the 02 indicates that the individual is the second child of that family. Birth dates will indicate whether or not the correct sequence of the children is known or was known (no birthdate, or dates not in sequence, sequence was probably not known when listed).

The arrangement of the book is by family numbers. Immediately preceding each family, in the center of the line will be found the family number corresponding to that family. At the beginning of the paragraph describing a family will be found the number of the head of the family as a child. This enables one to trace a line back to the beginning, that is, back to Palmer.

Under each family those children appearing elsewhere as heads of families will have, following their birthdate, the family number of the family of which they are the head. If married to another Tingley descendant, the child may be shown as the spouse rather than as the head of that family. This enables one to trace the descendants of an individual.

The numbers appearing in the index are family numbers. It will be noted that some of them have a prefix "S". Such a number following an individual's name in the index indicates that person is a spouse of a Tingley descendant. Thus ALLEN, Clifton Anthony S10-04220 is the husband of Laura Maud Laverty 09-02418-04 when she became head of family 10-04220. He is found in the paragraph just below the family number and before children are listed in the family.

When the number following an individual's name in the index has no "S" prefix that number is a family number under which the individual will be listed as a child. Thus, ALLEN, Clare Donald 10-04220 is found in the 10th generation, 4220th family and is the second child shown. The number following his name is 11-06305, which will appear in a future volume. If no number is shown, he was not married (or it was not known) at the time the book went to press.

To trace one's own line back to the beginning, that is, back to Palmer, one should start with her own name and the number which follows her name in the index. For example, as above, 10-04220 following name ALLEN, Dorothy Eileen, in index will be found in the 10th generation, 4220th family and is the third child. Her mother, at the beginning of the paragraph for family 10-04220 has a number preceding her name 09-02418-04. This says that she was the fourth child in the 2418th family of the ninth generation, Laura Maud Laverty. By looking up the 2418th family of the ninth gener-

ation (Vol. IV) it will be found that Laura Maud is the 4th child and the number after her name is 10-04220. Now to trace back farther repeat this process. For finding relationships between individuals see instructions in Volume I, page 518.

Adopted children and their lines are carried in italics to distinguish them from those of Tingley blood.

When a person was known by his middle name rather than his first name, that name is underlined.
